### LOWERED BY EVANS BRITISH DAVIS CUP ACTION UNPOPULAR

CHICAGO, July 18.—Chick Evans. formerly national amateur and open golf champion, Monday set a record of 67 for the 6,503-yard Midlothian LONDON, July 18.—The withdrawal of the British Isles Davis cup team from the play with Spain has created an unfavorable impression among a large section of English tennis enthusiasts and is likely to prove extremely unpopular among the younger men. The comment is made that nothwithstanding the inability of Maj. or Kingscote to go to the United States, England would with his services have survived against Spain and that then the best available men could have been sent to play in the final round in the United States.

It is added that representatives from the British Isles could have also been the best to be at the top of her best form. ourse in the qualifying round of that club's annual invitation tournament Evans' score was five under par for the links, and he bettered the next best score, made by Willie Hunter, formerly British champion, by four strokes.
Fred Wright of Los Angeles tied Fred Wright of Los Angeles tied with Ira Couch, a youthful Chicagoan for third place with 73. Jesse Guilford, of Boston, national amateur champion, took 78 strokes, the same as E. Hoover Bankard of Midlothian who held the previous course record of 70. Evans had an easy three for a 65 when he reached the tee of the 291-yard eighteenth, but he pushed his tee shot to a trap, came out short

the British Isles could have also been entered for the American National championships, which it is believed the Americans would have appreciated, partly as an offset to Wimbledon's claim to the world's grass court championships in perpetuity.

A good team of younger men would have been available, it is pointed out who would thus have had a unique experience against the modern speed of the American players. Davisson Herron, formerly na-tional champion, finished in seventh place with 76.

This matter of nerve control is often beyond any diagnosis. Each competitor finds moments when he is extremely nervous, when there is no apparent reason for the same. Again, at other tests, he finds himself cool and collected where he had expected to find a nervous crash. Part of this may be due to a physical condition and part to a mental state that has slipped in upon him without warning.
